OBJECTIVE

Motivated and detail-oriented software development student seeking a Summer 2025 Software Development Internship to apply my skills in ASP.NET Core, Spring Boot, Angular, and Big Data technologies.

Passionate about full-stack development, cloud computing, and cybersecurity, with hands-on experience in penetration testing and networking. Eager to contribute to a dynamic team while expanding my technical expertise.

EDUCATION

SOFTWARE DEVELOPMENT NETWORK ENGINEERING ASSOCIATES DEGREE / IN PROGRESS

Sheridan College

Currently a 5th Semester Student. Expected Graduation: December 2025

CERTIFICATIONS

CERTIFIED PENETRATION TESTING SPECIALIST (CPTS) HACK THE BOX / IN PROGRESS

A hands-on certification covering network, web, and Active Directory penetration testing, emphasizing real-world attack scenarios and ethical hacking techniques.

CYBERSECURITY CAREER CERTIFICATE GOOGLE / AUGUST 2024

A foundational cybersecurity certification covering risk assessment, network security, incident response, and security tools, preparing for entry-level security roles.

DOCKER FOUNDATIONS PROFESSIONAL CERTIFICATE DOCKER INC & LINKEDIN/ MAY 2024

The Docker Foundations Covers containerization fundamentals, Docker CLI, image creation, networking, and orchestration, providing skills for modern DevOps and cloud environments.

TECHNICAL SKILLS

Proficient in software development using Java, C, JavaScript, Python, Kotlin, and Swift. Experienced in full-stack web development with React, Spring Boot, and ASP.NET Core. Skilled in Big Data technologies, including HDFS, Spark, Hive, Kafka, and Zookeeper, as well as database administration with Oracle, MongoDB, and Hive. Experienced with cloud platforms such as AWS and GCP. Well-versed in Agile methodologies, DevOps practices, and CI/CD pipelines using tools like Jenkins, Docker, and Kubernetes for efficient software delivery and deployment..
